

THIS RV IS EQUIPPED WITH

RV SIDEWALL CUT-AWAY

DURABLE • INNOVATIVE • LIGHTWEIGHT

Extend your RV's life with a patented blend of polypropylene and fiberglass, designed for durability, lightweight strength, and resistance to moisture, rot, and delamination. With customizable thickness options, our composite panels offer superior protection and efficiency, ensuring worry-free adventures for years to come.

EMPOWERED BY  PATRICK

## FEATURES OF NTXT

### **SUPERIOR SOUND ABSORPTION**

NTXT composite panels absorb sound waves, resulting in a smooth & quiet ride.

### **LIGHTWEIGHT**

NTXT panels are less than half the weight of wood at the same thickness. This will help reduce stress on your tow vehicle while increasing fuel efficiency.

### **STRONG STRUCTURAL SUPPORT**

NTXT composite panels resist mold, mildew, rot, and warping. Their woven structure enhances strength and minimizes delamination risk.

### **NO TOXIC CHEMICALS**

NTXT composites have no formaldehyde or other toxic chemicals and fumes.

## WHY CHOOSE NTXT?

Extend your RV's life with our patented polypropylene and fiberglass blend. Select from a range of composite panel thicknesses tailored to your RV's specific needs.

- 2.9MM
- 3.6MM
- 4.7MM
- 8.0MM
- 12.0MM
